Office Action Summary	Application No. 10/510,242	Applicant(s) MUTO ET AL.	
	Examiner YEVEGENY VALENROD	Art Unit 1621	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 17 April 2008.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Rejection of claims 1, 2, 5-10, 12-13, 16, 17, 24 and 25 under 35 USC 103(a) over Marsije et al. is withdrawn in view of applicants' amendment.

Rejection of claims 1-10, 12-16, 25 and 25 under 35 USC 103(a) over Butenas et al. is withdrawn in view of applicants' amendment.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18 and 19 recites the limitation "N-[4-(tert-butyl)benzyl]-5-[[4-(methylphenyl)sulfonyl]oxy]naphthalene-1-sulfonamide", 7th compound in claim 18 and sole compound in claim 19. There is insufficient antecedent basis for this limitation in the claim. The structure of compound of formula (i) as described in claim 1 limits "A" to either a Hydrogen atom or an acyl group. The sulfonyl group found in the above compound is not included in the definition of "A" in compound of formula (I).

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-10, 12-19, 24 and 25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1 of the instantly claimed invention has been amended to include a proviso wherein 3 specific species are excluded from as Markush group. The instant disclosure and the claims as originally filed fail to list the three excluded groups either by name or by structure. In the Remarks filed 2/19/08 applicant has failed to indicate where in specification the excluded species are mentioned.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, 6-10, 12, 13, 15, 17, 24 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Bender et al. (WO99/37609, the resulting US patent 6,417,181 is used as an English equivalent).

Bender et al disclose compounds that are physiologically active and include compounds 109 and 110 (see structure below), which anticipate the structural requirements of the compound in the instantly rejected claims.

Art Unit: 1621

The limitations directed to the intended use of the compounds are not given patentable weight. It is well settled that the intended use of a composition or product (e.g. as a cosmetic composition) will not further limit claims drawn to a composition or product, so long as the prior art discloses the same composition comprising the same ingredients in an effective amount as instantly claimed. See, e.g., *Ex parte Masham*, 2 USPQ2d, 1647

Allowed claims

Claim 11 is allowed for reasons of record.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

Claims 1-25 are pending

Claims 20-23 are withdrawn

Claims 1-10, 12-19, 24 and 25 are rejected

Claim 11 is allowed
